PREFACE

---

The following genealogical material was compiled by me over a period of years from 1910 to 1937. 1686887

On my trip around the world on Clarke's first World Cruise 1909-1910 on the S.S. Cleveland of the Hamburg American Line, I had the pleasure of meeting a Mr. Lebbeus Miller of Elizabeth, N.J. who was descended from the same common ancestor--John Miller Sen., of Easthampton, L.I., and Elizabethtownship, New Jersey.

Knowing that my "Miller" forbears were of the same vicinity in New Jersey, he inspired me to do some research. When I found in Little's "Early Passaic Valley Settlers", the names of my grandparents Linus High Miller and Abigail Price, then I truly was inspired, and the result is this 78 page manuscript, which contains much family data, none of which is in published form.

It is my hope, that this material will be helpful to all those interested in family genealogy and inspire others to compile and preserve more family data, so that their lineage may help others to become members of the Daughters of the American Revolution or other kindred organizations.

To the following persons I am greatly indebted for inspiration and valuable family data. Four of whom have already passed on.

The first settlers of Easthampton, L.I. were Puritans mostly some came there from New Haven, Conn., Lynn, Mass., Milford, Conn., and others from Boston. Historians state that they came from Maidstone, Kent County, England, that they were well educated an intelligent group of persons, industrious and willing to endure hardships for the freedom of religion. They were mostly farmers and in the pursuit of whales which no doubt was quite a means of livelihood in those early days.

The original allotments of land were 34 in number, of from 8 to 12 acres each, a portion was designated as "Millers Corners" Their houses were small, having thatched roofs. The Church services were held in the tavern or ordinary of Thomas Baker, before the church was erected, for which he made a small charge of 1s and 6d each Sabbath.

Many of the first settlers remained and are buried in the old Amaganset burial ground which adjoined the church, Some of the settlers went west to New Jersey.

## JOHN MILLER FAMILY CONT'D.

John Miller Sen. the first of his name was of English descent coming from Maidstone, Kent County, England to Lynn, Mass. then to Easthampton, L.I. in 1649. Historians state that he was well advanced in years when he came to Long Island and spent remainder of his days there. Little is known about his wife, but there is a tradition that his family and the Rev. Abraham Pierson, who established a church in Southampton, L.I. in 1640, were closely related.

In the early Town records of Easthampton, we find some interesting facts.

# JOHN MILLER FAMILY CONT'D.

5th Gen. Linus High Miller, 5th child of Ezra and Mary (High) Miller, was born May 4, 1812 Westfield, N.J. Married Feb. 23, 1836 to Abigail Price, daughter of Elihu and Abigail (Pierson) Ludlam Price of Elizabeth N.J. and born Dec. 7, 1816 and died Nov. 17, 1850, Racine. They lived in Westfield and Elizabeth, N.J. Their four children were born in Westfield, N.J. Linus High Miller was a farmer and carpenter and worshiped in the old Westfield Church, which is one of the historic spots in Westfield.

In 1849 he and his wife and four little children decided to start west where several of his family had gone. There were three reasons for leaving for the west. His oldest sister Eliza, who had married Charles Clark Williams of Williams Farms, Newark left East 1847. Moses Miller, his younger brother by two years had settled in Racine Wis, had a General Merchandise store there and had married there Frances A. Durand, one of a prominent family. Eliza Miller Williams was living on a large farm on the outskirts of Davenport, Iowa, where a large family was being reared. Another sister Esther had married Daniel Crane and had settled at Mobile Alabama.

So in 1849 Linus High Miller came west also settling in Racine, on a farm, arriving just as one of the hard cold winter of Wisconsin was settling in and they were accustomed to the mild climate of New Jersey, not where mercury went down to 20, 30 or perhaps 35 degrees below zero. children aged 10, 8, 4 and 2 years to care for.

# JOHN MILLER FAMILY CONT'D.

---

He had an elder sister living near Davenport, Iowa and this no doubt accounts for his having been mustered into service there. His sister was Eliza (Miller) Williams, wife of Charles Clarke Williams. He was mustered into U.S. service for three years on Dec. 15, 1862, as 1st Sergeant in 37th Iowa, Company K Infantry, by Capt. J.G. Crane. Records of Adjutant General's office shows that he was promoted to Sergeant Major Nov. 1863 and that he was mustered out May 24, 1865 at Davenport, Iowa. We have been told this was known as the Graybeards owing to the extreme age of men who were allowed to enlist. Linus High Miller did guard duty at Memphis, Tenn.

His son Moses Howell Miller was also a soldier in Civil War and was killed at Battle of Vicksburg and buried at Carrollton, La. he was in the 20th Iowa Regiment.

After the <sup>War</sup> Civil Linus High Miller returned to Racine, Wis. where he went into Insurance and Real estate business. He remained at Racine until 1885, when he came to St. Paul, Minn to make his home with his son Mahlon Dickenson Miller and his family and he lived in St. Paul, winters and summers at Bald Eagle Lake, Minn. He was a man of integrity and honor, fond of the best literature an earnest Christian always active in the Presbyterian Church and man of a splendid sense of good humor.

## JOHN MILLER FAMILY CONT'D.

6thGen. Mahlon Dickenson Miller, son of Linus High Miller and Abigail Pierson (Price) Miller was born in Westfield, N.J. His father was the son of Ezra and Mary (High) Miller of Westfield, N.J.

He was born May 13, 1848 and when one and half years of age came west with his parents, to Racine Wis. where he received his education in a private High School of Prof. Mc Lynn. After graduation with high honors, he taught school for a while out in outskirts of Racine and after a while he was taken into the Insurance and Real Estate office of his Cousin William Henry Miller, son of Moses Miller. Later he and his Cousin went to Chicago, Ill. and both were in Insurance. Mahlon D. Miller was an adjuster of the Continental Fire Insurance company and was sent to Minnesota, the Dakotas, Iowa and Wis. While in Chicago he resided near the old Water Tower and attended Fourth Presbyterian Church, teaching in the Colored Mission Sunday School in the afternoon.

It was on one of the trips to Chicago in 1871 or 1872 that he met the young woman Elizabeth Barbara Blair, who was later to become his wife. They were married on July 19, 1875 at St. Joseph Mo. She was the daughter of William and Elizabeth (von Kennell) Blair of St. Joseph, who were married in Chillicothe, or Mc Connelsville, Ohio, April 28, 1842. William Blair was a mason and contractor building many of the canals and early railroads in Ohio, as well as the Old Hannibal and St. Joseph R.R., the first R.R. west of St. Louis, Mo.

## JOHN MILLER FAMILY CONT'D.

After marriage for a year they lived in Racine, then in 1876 they moved to St. Paul, Minn. where Mahlon D. Miller was in the Insurance and real estate, having an office in St. Paul, on East 3rd St. near Wabasha St. as well as office in Minneapolis. He used to go back and forth to Minneapolis on the railroad train,

In 1879 and 1880 he began to build houses to be sold and in 1885 built the first apartment building in St. Paul, Minn. He could not obtain an architect west, so sent east for one. The first apartment was of red press brick with brown stone trim, had all the conveniences known at that time including gas and steam heat and was situated on corner of St. Peter St., and College Ave., known as the "Premier Apartments". Shortly after he built another apartment on West College Ave., between St. Peter and Rice St.

In 1885 he built the Annex to the Albion apartment on Selby Corner of Western Ave. His brother in-law, Frank F. Blair built the main building of Albion Apartments in 1884. St. Paul was growing rapidly at this time. St. Paul had its Ice Palace and winter sports and was attracting many new comers, as it had the lovely lakes close at hand for the hot summer months.

In 1880 Mahlon D. Miller bought property on the shore of Bald Eagle Lake, near where the Spring used to be and built a summer cottage, not more than 100 feet of the shore of the lake.

In 1889 he started the St. Paul Park Improvement Co., was the President of the company, which bought up land from the farmers around St. Paul Park and Newport and was instrumental in starting a manufacturing town and beautiful residential site on the bluffs on east side of Mississippi River. The family resided there in winters and summers at Bald Eagle Lake.

## JOHN MILLER FAMILY CONT'D.

In 1893 the panic came and the family was land poor, but kept in tact the five acres of land on shore of Bald Eagle Lake, where in 1890 he had enlarged the summer cottage. In 1900 the family moved from St. Paul Park to 917 Iglehart Ave., St. Paul, Minn.,

About the year 1904-05 he bought the triangular piece of land on shore of Bald Eagle lake, known as Eagle Park and comprising over five acres, on which stood nine summer cottages, which had been built few years since by Mrs. Amsden.

All this property had been platted by Dr. Post in 1871, who had a Sanitarium on the site, on account of the wonderful mineral spring being on premises. This spring had been analyzed and found to contain certain mineral properties which were beneficial.

For several years Mahlon D. Miller had been working on a process, by which the native grown Minnesota flax could be utilized carded, spun into Yarn and woven into a beautiful linen toweling. This plant being at St. Paul Park, Minn. After a few month of the death of Mr. Miller, this Mill burned to ground and process was lost. He had just completed all experiments and process was perfected.

In 1905 he built home later known as "Spring Park Villa" Bald Eagle

In 1907, May 26, at Bald Eagle Lake, Mr. Miller passed on and was buried in Miller Plot at Oakland Cemetery, St. Paul, Minn.

He left a widow and six children.

by

Kate Eldridge Glaspell, widow of Judge Glaspell, a member of  
the QUILL CLUB.

HARVEST VERSE (During the Depression 1934-1936.)

In the Spring the farmers fancy didn't turn to thoughts of love.

His soul cried out for deep soil moisture, as he plowed the  
weeds above,

After weeks of arduous labor, he sowed his cleaned seed wheat,

So that all mankind might have plenty of bread to eat.

It grew and grew, till it waved in the summer breeze,

And he smiled, and he smiled, as he dreamed of luxury and ease.

But, Texas sent a contribution, of microbe infested dust,

That settled on the wheat leaves, and formed what's called

black rust.

Then rain ceased to fall, and the blazing sun burned all his grain,

The cows nearly dried up, and the houses became insane.

The turkeys got the black head, and the hens declined to lay.

And his hogs had all been slaughtered by the A. A. A.

When the harvest was over he was filled with blank dismay,

For he had only debts, and a season ticket for the FERA.

JOHN MILLER FAMILY

John High Family

Westfield, N.J.

The land belonging to Westfield, N.J. was purchased from the Indians by the Dutch and the early history dates from 1699. The first person bearing the name of HIGH of whom we have any knowledge (1836) was JOHN HIGH Sen., of Westfield, N.J., from whence he came we have no knowledge. The Historian Richard P. Greaves of Dunellen, N.J., who is compiling a history of the "first settlers of Westfield", over 20 yrs. of research etc. not yet published, says he does not believe High family was of German descent that Germans came later, going further west.

Bible records of High Family sent by Rachel

(High) Mooney, d of John High Jr., and Rachel (Squier) High of Westfield, May 2, 1851 to Charles Clarke Williams. Williams and his wife Eliza (Miller) High, living then Davenport, Ia. Bible (now 1836) in possession of Minnie Schlegel, Davenport Ia. a direct Descendant of John High Jr.,

First settlers of Westfield were among those of our ancestors John High Sen., John Maxwell Sen., Benjamin Squier were the founders of large families. John Maxwell Sen., came from Scotland 1650, landing at Amboy. Benjamin Squier founder resided there 1699, owning 400 acres of land. John High Sen., lived in 1753, where widow Rachel (High) Mooney resided in 1819, opposite what is now the Richie Place. House gone, but well there, where neighborhood prayer meetings were held, in HIGH home.

## JOHN HIGH FAMILY

Westfield, N.J.

During the Revolutionary War the descendants of the early families were among those who protected their families and property against the British and many lost their lives! They were worthy citizens and men of probity, honor and position such citizens as John High, Squier, Pierson etc. "

Among those officers and men, who took an active part in the capture of the British ship, "Blue Mountain Valley", Jan 22, 1776 are the names of many Westfield families; -Baker, Clarke, Marsh, Meeker, Pierson, Miller, etc.

Ref. Hist. of Union Co., by Ricord, page 512

"Following is a list of Westfield men mostly who served under Capt. Little : Robert and John Aken Jr., Jacob Bagley, William Henry, and David Baker; William, Jessie, Azariah, Charles and John C. Clarke; John, John Jr., and Jacob Crane, John High, Cornelius Ludlam, Enoch Clarke, Noah Miller, Ephraim and Abraham Marsh, Sylvanus and William Jr. Pierson, Ebenezer Price, Moses Ross etc. Many others served under Capt. Scudder and Capt. Matthias Clark etc."

This Volunteer company called the "Jersey Blues" should be fitted out with proper clothing, so women made two frocks and pantaloons dyed with blue, doing their own spinning. These uniforms were trimmed with colored tapes, giving the company a singular appearance and known as "The Jersey Blues". Many followed Gen. Washington and in regular army to Morristown.

In passing would say that the Cornelius Ludlam mentioned in paragraph above, was first husband of Abigail Pierson

The Maxwell family which settled in New Jersey are the  
Descendants of-

Thomas Maxwell of the Kirkconnell line, who commanded the rear guard of King James or St. Rath's Army and who, at the capitulation at Limerick chose to remain in Ireland and settled in north of Ireland, County of Tyrone.

The descendants of the Maxwell family spring from the stock of Macus (Macus), son of Auluf, King of Northumbria, A.D. 949. The name has passed through various forms, Macus, Macuswell and Maxwell, which latter has been retained since A.D. 1150.

The branch from which the New Jersey families descend, is "Ye Maxwells of Polloc", This family with 14 others is mentioned by Lord Hales as having accompanied Edward Atheling into Scotland when England submitted to William of Normandy.

Caerlvare, Rock Castle, situated in Dumfriesshire, on the shore of Solway was the headquarters of the Maxwell Clan. The family was conspicuous in the history of Scotland and their fame and good name has been celebrated in song and story in modern times by Robert Burns and Sir Walter Scott and others.

Legend assigns to this branch of Maxwell family the Motto: "Ready, Aye Ready" or in French "Je Suis Pret," which was obtained as follows: When Wallace was in his greatest straits hiding in caves, glens near Lanark, the leader of Maxwell Clan hunted

The following page gives the line of descent as has been able to be learned about the Maxwell family which came to America.

John Maxwell Senior, was the founder of the family which settled in and around Westfield, N.J. He was born in Scotland and historians say that he landed at Amboy N.J. and was of Andover, before coming to Westfield, N.J. where we find he was among the list of names, which founded the historic Presbyterian Church of that town and was living there in 1699 and his name appears on the list of names of founders living in 1750.

# Introduction

The purpose of this study is to investigate the effects of various factors on the growth and development of the human body. The study is designed to provide a comprehensive overview of the physical changes that occur during the human life cycle, from birth to old age. The research is based on a review of existing literature and the results of a series of experiments conducted over a period of several years. The findings of the study are presented in a series of chapters, each dealing with a different aspect of human growth and development. The first chapter discusses the general principles of growth and development, while the subsequent chapters focus on specific areas such as the skeletal system, the muscular system, and the endocrine system. The study is intended to provide a valuable resource for students, researchers, and anyone interested in the field of human biology.

The study is organized into several chapters, each focusing on a different aspect of human growth and development. The first chapter, "General Principles of Growth and Development," provides a broad overview of the field. The second chapter, "The Skeletal System," discusses the structure and function of the bones and cartilage. The third chapter, "The Muscular System," examines the structure and function of the muscles. The fourth chapter, "The Endocrine System," explores the role of the hormones in regulating growth and development. The fifth chapter, "The Nervous System," discusses the role of the brain and spinal cord in controlling the body's functions. The sixth chapter, "The Reproductive System," examines the development of the reproductive organs and the process of reproduction. The seventh chapter, "The Immune System," discusses the role of the immune system in protecting the body from disease. The eighth chapter, "The Circulatory System," examines the structure and function of the heart and blood vessels. The ninth chapter, "The Respiratory System," discusses the structure and function of the lungs and the process of breathing. The tenth chapter, "The Digestive System," examines the structure and function of the stomach, intestines, and other organs involved in the process of digestion. The eleventh chapter, "The Excretory System," discusses the role of the kidneys and other organs in removing waste from the body. The twelfth chapter, "The Integumentary System," examines the structure and function of the skin and its appendages. The final chapter, "The Human Life Cycle," provides a comprehensive overview of the changes that occur from birth to old age.

The Squier family has spelled it's name in several ways ; Squers, Squires, Squire, Squier, Swiers and Swires. These various forms of spelling bear with them the meaning "Esquire" and were used at the time the sons of these Knights bore, as the name implies, on their shields during the time of Henry VI, when these forms of spelling were adopted by the heirs of the high gentry and later used indiscriminately by their descendants.

Coat of Arms-a chevron between three swans' heads and necks erased argent. Crest-an elephant's head erased argent dually gored. Motto -"Salus per Christum Redemptorem" (Salvation through Christ the Redeemer.)

## JOHN MILLER FAMILY

Ref. New Eng. Hist. and Gen. Records

Crane Family

Rockaway Records, Page 201, 202, 230, 105 .

Passaic Valley Early Settlers, by Little.

Airbain Book of Crests.

The Crane family was originally of Chelshire County, Eng., the precise date is unknown, but it is an ancient and honourable family, dating back to the 3rd Century.

All were great warriors, generals, cols. and captains and tagged with coat of arms, some have traced back 12 generations.

Gen. Josiah Crane was the founder of Crane family in America and was in service of King James, and for services rendered was awarded with coat of arms, and a goodly estate. Some of the descendants of Gen Josiah Crane went to the north of Ireland some went to Germany and later, Stephen, Jasper and Rhoebe came to America. Some authorities have Stephen, son of Jasper. Stephen Crane 1630-1709, is accredited as the first ancestor of the name Crane in this country and was the ancestor of the Crane families in both Elizabethtown and Westfield, New Jersey.

Stephen Crane of Elizabethtown N.J. came from England where he was born, on the "Caledonia" in 1650, landing at Amboy, N.J. "Caledonia" ship is called the "Mayflower" of New Jersey. His wife was a Spanish woman with red hair and blue eyes, one writer states his wife was a blonde.

Stephen Crane, founder of Elizabethtown and Westfield N.J. was closely related to Jasper Crane, founder of Newark, and 1st settler of New Haven Conn. in 1639. Stephen Crane took an active part in the young colony there and one of the first Elizabethtown Associates in 1656.

In 1783 there was an Adrian La Forge, who bought land on Staten Island, Richmond County, N.Y. From the similarity of the name, the inference is natural, that if they are not identical, they were connected: this is however conjecture.

There appears to have been two branches of the family, the Castleton, Richmond Co. Staten Island and the Westfield branch of the same county, who may or may not have had a common origin. The paucity of notices in old records of the county and churches and the absence of the family records renders it impossible to trace the family far.

The present living representative of Castleton branch is G.M. Laforge, also of Illinois: the later Peter D. LaForge, also of Illinois and the late Capt. John LaForge of West New Brighton, Staten Island were his brothers; their father was David Laforge and their mother was Gertrude, dau of John Martling.

David's father was Peter LaForge, who was the son of Benjamin. The brothers of David LaForge were; Peter, John, Benjamin, Jacob,

The French Huguenots came to America because of the persecution they suffered because of their being Protestants. In 1532 Admiral Cologin, commanding Huguenots of France mseeing trouble sometime ahead for the people of his faith thought to establish a refuge for them in New Workd. THE HISTORY OF THE  
CITY OF BOSTON

The first settlement in Boston was made in 1630 by a group of Puritan settlers from England. They came to the city in search of religious freedom and a place to practice their faith. The settlers were led by John Winthrop, who was elected as the first governor of the city. He gave a famous speech to the settlers, in which he said that they were going to create a "city upon a hill" that would be a model for the rest of the world.

The city grew rapidly in the years following its founding. By 1640, the population of Boston had reached over 1,000 people. The city was known for its strict religious laws and its commitment to education. In 1635, the first public school in Boston was founded. The city also became a center of trade and commerce, with many ships arriving and departing from its harbor.

In 1689, the city was taken over by British soldiers. The British ruled the city for over 150 years. During this time, the city grew even larger and more important. It became a major center of industry and commerce. The city was also the site of many important events, including the Boston Tea Party and the Battle of Boston.

The city of Boston has a rich and varied history. It has been a center of religion, education, and commerce for over 300 years. The city has also been the site of many important events, including the Boston Tea Party and the Battle of Boston. Today, Boston is a major city in the United States, with a population of over 600,000 people. It is known for its many historic sites and its vibrant culture.
